Subject: Re: ERS call

Tom/Linda,

Please consider this ERS closed as Mr. Orr has raised this question of the OU5 bark to the region and others and we will respond accordingly.

Thanks,
Mike

Subject: ERS call

Linda,

D C Orr called the ERS phone on Sunday, 3-27-2011, approximately 12:49 pm. He left a message to call him. I returned his call around 4:30 pm the same day. He wanted to voice his concern over the bark that is being used around town that is originating from OU5. He specifically mentioned the amphitheater at the middle school as being one of the depositories of the bark. I told him I would pass his concern on to Mike Cirian and the usual holder of the ERS phone, Nic Pisciotta. He did not mention seeing any visible vermiculite, only worrying about asbestos being in the bark. Thank you.
